Office Action Summary

Art Unit: 1711

1. An RCE (Paper No. 6) an amendment (Paper No. 7) and an IDS (Paper No. 8) have been filed on April 1, 2003).

2. Claims under examination are 1-8, 11 and 13.

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claim 13 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The recitation "or combination thereof" on line 6 of this claim is not supported by the specification.

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

6. Claims 1-8 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Yau, S. (USP 5080942).

7. Claims 1-8 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yau, S. (USP 5080942).

8. Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yau, S. (USP 5080492) as applied to claims 1 and 2 above, and further in view of Patel, R. (USP 4654402).

Art Unit: 1711

Please refer to prior Office actions (Paper Nos. 2 and 5) for these rejections.

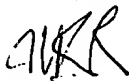

In response to the examiner's comments (in Paper No. 5) that no supportive data were presented to show that the carbon black of Yau affects the basic and novel characteristics of invention of instant claims 1-8 and therefore it should be excluded from scope of instant claim 1 (which recites "consisting essentially of"), the applicant has pointed out to an article cited on accompanying PTO-1449 (Paper No. 7). While the information therein is important, it is not conducive to establish conclusively that carbon black of Yau is detrimental to instant invention, because the data are not commensurate in scope with instant claims.

9. Any inquiry concerning this communication from the examiner should be directed to U.K. Rajguru whose telephone number is 703-308-3224. The examiner can generally be reached on Monday-Friday 9:30 am-6:00 pm.
